Men in Next Draft—Res-

ponding to Pershing.

Washington, April 7.—Approximately 150,000 men will be sent to training camps during the five-day period, beginning April 26, under orders sent to State Governors to-day by Provost Marshal Gen. Crowder for mobilization of the April call of the second draft. This is three times the number it was originally planned to call, and is nearly twice the monthly quota as based on the calling of 800,000 men over a period of nine months.

Calling out of the increased number was made necessary by the decision of President Wilson to respond without delay to the need of France and Great Britain for reinforcements in the great battle in Flanders. Vacancies in National Army divisions resulting from the withdrawal of men to complete national guard and regular army units and for the formation of special technical units asked by Gen. Pershing, will be made good by the April draft. Those division farthest advanced in training are to receive first attention in order that the maximum number of complete units may be sent abroad soon.

To Use Old System.

Failure of Congress to pass the amendment to the selective service act, which would permit the fixation of State quotas on the number of men in class one, necessitated temporary adherence to the old system. Local boards have been officially advised, however, that they are to ignore "quotas" for the time being and to simply continue calling up men until they have obtained the number they have been instructed to forward. When a basis for establishing State quotas has been found, due credit against future increments will be given for those already called. Among the men to be called will be approximately 116,700 whites and 33,700 negroes. Pennsylvania leads with 10,965 called; Ohio is second with 10,302, and New York, third with 10,171.

ANTI-DISLOYALTY BILL IS OFFERED IN THE HOUSE.

Washington.—An anti-disloyalty resolution, similar to that agreed upon by the senate committee, was introduced in the house by Representative Ayres, of Kansas. It would direct that any government employee or official who commits any disloyal act or utters unpatriotic, disloyal or abusive or seditious language or who in an abusive or violent manner criticizes the president, army, navy or flag shall be dismissed.

BARN IS DESTROYED WHEN HIT BY LIGHTING.

A large barn belonging to Gertie Cost, of the Puthier vicinity, was set on fire by lightning and totally destroyed during the storm Wednesday morning. The loss is estimated at \$1,000, partially covered by insurance. It is reported that the large hall stones that fell broke quite a number of windows in different sections of the county. However the damage is light. No damage to the growing crops is reported.—Owensboro Messenger.

ELECTRIC PIANO SAVES LIVES OF SIX PERSONS.

Grand Rapids, Mich.—Six persons, awakened by an electric piano, escaped from flames which destroyed the Owashitapong club and the Ross Pavilion at Reed's Lake early today. The loss was estimated at \$135,000. The clubhouse was mentioned some time ago as a possible site for a hospital for wounded soldiers.

The cause of the fire has not been determined. It is believed that crossed wires in the pavilion started the piano. H. J. Ross, his wife, son, sister-in-law and two grandchildren were aroused by the music and got out of the pavilion before it collapsed.

SHOOTING NEAR OLATON.

PARTIAL PAYMENT PLAN FOR LIBERTY LOAN IS POPULAR

WAGE EARNERS MAY OBTAIN
BONDS AND PAY IN WEEKLY
INSTALLMENTS.

THE BANKS AGREE ON FORM

City Workers May Pay Weekly, While
in Rural Communities Systems
Adapted to Needs Are
Being Developed.

The government "partial payment" plan is being adopted by many of the cities and towns throughout the Eighth Federal Reserve District for handling the Third Liberty Loan, which starts April 6. Committees have been appointed in several cities to work out details in connection with the plan. It is thought that no form of subscriptions to be used in the sale of the bonds will reach anything like the aggregate number of subscribers who will take advantage of this method of purchasing.

In St. Louis a committee of bankers has been active shaping arrangements so that purchasers of these bonds will have the privilege of buying them on weekly installments.

F. O. Watts, president Third National Bank of St. Louis and chairman of the Metropolitan Committee of the Liberty Loan Organization for the Eighth Federal Reserve District, is highly enthusiastic over the plan.

During the previous loans, Mr. Watts said, there were approximately 38,000 subscriptions in St. Louis which were taken on a weekly installment plan, but in his opinion that city ought to have 138,000 subscribers to the weekly payment plan. That is the goal set by the present committee for the Third Liberty Loan Board issue.

Of the 47 banks in St. Louis, 46 have signed up to co-operate in pushing the weekly payment subscriptions, and a uniform contract to govern such subscriptions, approved by the St. Louis Clearing House Association, as well as the banks themselves, has been adopted.

Form Is Adopted.

The form of contract is given below:

The owner of this "Liberty Loan" pass book has agreed to purchase from the _____ bank or trust company _____ dollars par value of the United States Government Liberty Loan Gold Bonds, and hereby agrees to pay for same at face value and interest at _____ percent per annum within 12 months from the date hereof.

Each payment shall be entitled to interest earned at the rate of the said Third Liberty Loan Bonds bear, but no payment shall draw interest prior to the date from which the bonds commence to bear interest and said interest shall be adjusted at the time of surrender of this pass book.

The purchaser may complete the entire payment in less than one year and may pay any amount at any time, except that a minimum payment of not less than 2 per cent per week must be maintained.

If the purchaser shall become delinquent in making regular payments, the said bank or trust company reserves the right to return such payments plus or minus the annual representing the difference between the market value and the par value of the bonds. This pass book shall not be negotiable, and may be presented upon payment made.

By the acceptance of this pass book the owner thereof accepts and assents to these terms and conditions.

The pass books and deposit tickets for the 46 St. Louis banks have been ordered and will be distributed to the participating banks sometime next week. The Publicity Committee is co-operating with the Publicity Committee of the Central Organization, and it has been arranged to cover the field from every angle of advertising.

SAVING SOFT CORN ON THE FARM.

Sorling all the corn now stored on the farm and putting ventilators in the cribs will help save the soft corn when warm weather comes, says the United States Department of Agriculture. While corn at the top, bottom, or sides of the cribs may be in fair shape, the corn in the middle of the cribs may be heating badly and spoiling. Examine the corn in the center of the cribs and take out all cob-rotten and spoiling ears, cautions the department, for if they are left in the crib they will rapidly damage the good ears around them.

Ventilators should be put in before refilling the cribs, unless they have already been provided. Improvised ventilators can be made of planks or rails held apart with slats, or they can be constructed in some other suitable manner, and should run completely through the cribs from the outside so that the air can circulate as freely as possible through the corn. Air spaces every 4 feet throughout the crib are recommended.

The Department of Agriculture is making a survey of soft corn in the country elevators to assist the railroads in placing ears where they are needed to move the corn to consuming and drying points in order to save it.

PLAN TO SPEED UP DRAFT MACHINERY.

Washington, April 3.—Measures to speed up the draft program are in contemplation and an official announcement is expected soon.

The intention is to meet the emergency in France. For that reason the \$80,000 to be called this year will be called more rapidly than was previously planned.

War Department officials said no arrangements were in sight looking to calling out more than the \$80,000 men it was planned to take into the service.

Officials do not regard it as possible that more men will be sent abroad this year than the department already has arranged to summon, even with additional British shipping made available as troop transports. There are now under arms here and in Europe more than 1,500,000 American soldiers. The number will have been raised to about 2,500,000 by the end of the year, counting drafted men, volunteers and special technical forces to be enlisted.

TWO WILLS CONTESTED.

CLOVERPORT, Ky.—Two wills where large fortunes are involved have recently been contested in the Hancock and Breckenridge county courts.

Mrs. Mary Richards, and Mrs. Sallie Sterrett are appellants for selves and heirs in contesting the will of the late Mrs. Eliza Webb, which was filed in the Hancock county circuit court. It is said that Mrs. Webb's estate was reported to the court by the appraisers to be worth \$49,000.

A suit has been filed in the Breckinridge county court contesting the will of the late Frank Fraze, deceased. Mr. Fraze had no children surviving him and all of his property was devised to his widow, Mrs. Cornelia Fraze. His nieces and nephews on his parental side are contesting the validity of the instrument. As there are large property interests involved the case is attracting more than unusual attention.—Owensboro Inquirer.

SUIT AGAINST LUNATIC.

The Western State Hospital has sued Elizabeth Lancaster to recover the sum of \$840 for board, care and treatment of the defendant in its institution at Hopkinsville for the past five years. Mrs. Lancaster was adjudged to be of unsound mind and received at the asylum on March 29, 1913 and has been confined ever since. The plaintiff is seeking to establish a lien on three tracts of land owned by the defendant aggregating 4½ acres which are asked to be sold to pay the claim.—Owensboro Inquirer.

WOMEN LEARNING TO KNIT TWO SOCKS AT ONCE.

The art of knitting two socks at once—one inside the other—has recently been introduced into this country from Europe and is exciting much interest among Red Cross workers, says the April Popular Mechanics Magazine. Two, instead of one, balls of yarn are required, but the regular number of needles is used, stitches being taken with each thread alternately. The outer sock is made wrong side out, while the inner one is knit in the regular way.

EASTER HUNT.

On Easter Sunday the young folks, with some of the older ones, of Liberty neighborhood, began gathering at the home of Mr. and Mrs. R. Lee Taylor's to celebrate Easter in the way of an egg hunt. Most all

brought eggs along and when about 63 had arrived, two of the crowd started out to hide the eggs and after returning they turned them all loose for the hunt.

When they came in with a basket so large and full, the big kettle was called for and in a few minutes such a jolly time we had eating eggs.

The next surprise was a sack of cracker-jacks and several different kinds of candy for each one. This had been prepared by the hostess the evening before, and I can say it was very much enjoyed by every one.

Each one went away after such a pleasant evening, wishing that Easter might come oftener.

One Present.**FLOW OF OIL GROWS IN MORGANFIELD WELL.**

Morganfield, Ky.—Interest continues to run high, because of the splendid oil flow, which continues to increase, in the Solomon Blue well, which is being drilled by the Bettie Braden Co., of Tulsa, Okla.

Oil sand was found at a depth of 1798 feet, in sand 24 feet thick. They thought at first it had twenty barrel capacity, but it now will run fifty barrels and after it is shot, the promoters say it may go to 400 or 500 barrels a day.

ARE WE GETTING LICKED?

Ofttimes we hear someone remark, when scanning the headlines of the daily papers, that the Germans are getting the best of us on all sides, and we admit that reports from the battlefield do not look as rosy to us as they might. However, after reading the following from the pen of Stephane Lauzanne, editor-in-chief of LeMartin in the New York times Magazine, we are still more fully convinced that right will yet win out, and that "they shall not pass." Bas- ing his belief that Germany is in for a licking on arithmetic, Mr. Lan- nne says:

"At this tragic hour of our life I might marshal statistics, proofs based on arithmetic. I might recall how France, which in 1916 was begining to make only about 150,000 shells a day, now makes 300,000. I might remind people that in 1916 there was still a shortage of heavy artillery. I might compare the 30,000 prisoners taken in eight days before Verdun on a front of attack of twelve miles, with the 50,000 prisoners claimed by the Germans in Plessy on a front of eighty miles—four times as long. I might harp on the fact that the allied front has been bent, but nowhere broken; I might say that our great armies of maneuver have scarcely got into action; that these armies tempered by four years of war, are the best that have ever trod a battlefield. But I will sweep all that aside because it is only secondary."

"There is an element that sways arithmetical figures from afar, that controls all strategic plans, all the power of war material, all the making of shells. It is morale! It is the fighting spirit.

"Beaten in war," said the great Napoleon, "is he who admits himself beaten." The Allies are not only not beaten and do not admit themselves beaten, but are inspired by faith in victory that never was greater, nor deeper, nor grimmer. Never was their morale better...ever has their fighting spirit flamed forth more ardent or pure."

Just why some people get the idea into their heads that when they invest in Liberty Bonds that they are donating something to the United States government, is beyond us. However, there are some people right here in Ohio county who think this very thing. Those who are of this frame of mind should attend some of the Liberty Bond meetings that are being held over the county, and then we are sure they will change their minds.

If our boys are patriotic to the extent of laying down everything and going to the front to fight our battles surely we who are privileged to remain at home will see that they do not suffer for the want of food, clothing and ammunition. And the only way we can assure them that they will be provided with these things is to take our quota, and "then some" of the third issue of Liberty Bonds. Will we do it?—why, of course we will!

The German press is now busily engaged in telling the subjects of the Kaiser that it was the extremely bad weather that stopped the great drive recently started on the Western front. Call it bad weather if you want to, but we have another name for it—the hot lead and steel from the gallant French, British and American boys who still say "they shall not pass."

No sooner had the Kaiser realized that the drive on the Western front was doomed to failure than he left for parts unknown, "passing the buck" to Hindenburg, et al. Had the drive been a success, Me und Got would have been the heroes of the day, but as things turned out, he left it with the devil and the lesser lights.

Not so very long ago the "Dinky" train that made regular trips between Madisonville and Nortonville was removed for some cause or other. The citizens of those two towns remonstrated with such force that the train has been put back into service. Pity but what we couldn't raise such a howl that we would be given better service over here on the M. H. & E.

Chicago's city council has voted to subscribe \$300,000,000 of the Third Liberty Loan. But Chicago alone cannot take the entire issue, and it is up-to-you and you, and every one of us to buy Liberty Bonds, or else take a chance on getting licked by the Kaiser—and this surely must not happen.

O-H-I-O C-O-U-N-T-Y—"over the top" in the Third Liberty Loan drive. Lets not be satisfied with merely subscribing for the amount allotted us, but let's double it.

SAYINGS OF WISE MEN.

Rightness expresses of actions what straightness does of lines and these can no more be two kinds of straight lines.—Herbert Spencer.

To resist with success the frigidity of old age one must combine the body, the mind and the heart; to keep these in parallel one must exercise, study and love.—Bonstet.

The only way to regenerate the world is to do the duty that lies nearest us.—Kingsley.

We do not count a man's years until he has nothing else to count.—Emerson.

Most people would succeed in small things if they were not troubled with great ambitions.—Longfellow. Applause is the spur of noble minds, the end and aim of weak ones.—C. C. Colton.

The conscious utterance of thought by speech or action, to any end, is art.—Emerson.

What is remote and difficult of success we are apt to overrate; what is really best for us lies always within our reach, though often overlooked.—Longfellow.

That is a good book which is opened with expectation and closed with profit.—Alcott.

As I approve of a youth that has something of the old man in him, so I am no less pleased with an old man that has something of the youth.—Cicero.

No man is born without ambitious worldly desires.—Carlyle.

COLLECTOR GRIFFITH NAMES ALEXANDER.

Ham Alexander has been designated by Collector Josh T. Griffith to go to Washington on April 15, to assist the commissioner of internal revenue in handling the revenue and war revenue tax reports. Mr. Alexander will remain in Washington until September 15, when he will return to the city and take up his work as income tax deputy of the local internal revenue office. It will require an expert from the 64 district revenue collectors to assist a review of the work in the commissioners office at Washington.

Mr. Alexander has been chief of the income tax division in the Second district of Kentucky for four years and is one of the few men in this state who have mastered the recently enacted complex war revenue law. He has assisted hundreds of taxpayers in Western Kentucky who have journeyed to Owensboro in making up their reports.—Owensboro Inquirer.

BAN ON PRO-GERMANISM IN DEMOCRATIC CLUB.

Now York.—The national Democratic club has joined other clubs in this city in an attack on pro-Germanism by adopting resolutions which forbid the use of the German language or the presence of enemy aliens in the clubhouse and provides for the destruction of any pro-Germanism literature found in the club library. Members ignoring the new rules will be expelled. It was announced today.

PATRIOTIC SPEAKING AT DUNDEE.

Rev. A. D. Leitchfield and Judge John B. Wilson addressed a large and enthusiastic audience at Dundee last Friday night. In plain and unequivocal terms, they told of the atrocities of the Hunns and plead with the people to awake to a realization of their duties as citizens of a liberty loving nation.

An organization for the furtherance of the Third Liberty Loan bond was perfected and much patriotism aroused.

LIBERTY BOND.

It will protect 1,000 soldiers from smallpox and 666 from typhoid. It will assure the safety of 139 wounded soldiers from lockjaw, the germs of which swarm in Belgian soil.

It will render painless 400 operations, supply 2 miles of bandages—enough to bandage 555 wounded.

It will furnish adhesive plaster and surgical gauze enough to benefit thousands of wounded soldiers.

Every purchaser of a Liberty Loan Bond performs a distinct individual service to his country and to our boys fighting in France.

The governors of South Carolina and Maine gave warning that unless drastic steps are taken soon mob violence may be expected.

MC DOWELL A. FOGLE, Sec.-Treas.

Mr. Dave Tuttle, of Falls of Rough, was in this city Tuesday.

Word has just been received here that Hon. Mat S. Cohen, Secretary of Agriculture, will address the citizens of Ohio county at the court house in Hartford, Saturday, April 13, at 10:30 a. m., and at Beaver Dam at 2 p. m. He is an able speaker and should be received by a large audience.

Mr. L. H. Shreve, of near Falls of Rough, was in town Tuesday on business. He is 52 years of age and although he has lived in the county most of his life, this was his first visit to the county seat. His brother, Mr. P. T. Shreve suggested that we get his photograph, but the photographer being out of town we failed to secure one.

RED CROSS NEWS.

The ladies of the Senior Red Cross are at present making soldier's hospital shirts. They expect to be ready to make a shipment sometime this week.

In the Hartford chapter, there are about 24 Senior members who devote a part of their time to active work.

The Junior Red Cross has to date received checks amounting to more than \$30.00 as the result of their first days drive for Sunday eggs, and a number of merchants are yet to be heard from.

The girls have received another large order for garments to be made and delivered by June 1. Help them to fill this order by giving them your Sunday eggs.

Mrs. Harrison Ewing, from Lake Division Headquarters, writes that she has rarely seen such alacrity as that displayed by the Junior Red Cross of Hartford, and that their recent report was a source of great joy.

For the benefit of those who do not know just what will become of the money received from the sale of Sunday eggs, we are glad to say that you need have no fear that any of it will be misspent or wasted. There are between 200 and 300 members of the Junior Red Cross at Hartford, and their special work is to purchase material and make it into garments for the suffering Belgian children. This is done according to patterns furnished by Red Cross Nurses in Belgium and is under the supervision of ladies who understand the art of cutting and fitting. This money goes to purchase cloth, thread, needles and other necessities. What worthier cause could you assist?

UNCLE SAM'S EYE ON FINANCIAL SLACKERS

Names of Men Falling in Duty on File in Washington.

Fees of the Third Liberty Bond issue throughout the United States will be listed and their names placed on file in the Treasury Department, where secret service agents will have access to them at all times. The several million Liberty Bond salesmen throughout the country will carry yellow cards furnished by the government, upon which they will write the name, address and objections of all persons who refuse to buy a bond.

When a person shows an attitude hostile to the loan the salesman will take out a yellow card and tell him it will be necessary to get his name and address and an exact statement as to why he will not subscribe, so that it may be filed with the District Liberty Loan Committee and also in the Treasury Department at Washington.

Secretary McAdoo in his instructions to the various Liberty Loan committees throughout the country has explained that the government does not intend to force persons to invest in bonds who cannot afford to do so, but in each case the man who fails to do so will be asked to give his reasons. It is pointed out that many who bought \$50 and \$100 bonds on the other loans could have invested in \$500 and \$1,000 bonds, and these will be listed.

The government is determined not only to list the military slackers of the nation but also the financial slackers. Uncle Sam takes the position that the man who can afford to invest in a Liberty Bond and refuses to do so is just as much a slacker as the man who attempts to dodge the draft. The government has launched a campaign to keep tabs on the disloyal men and women of the nation and no one may escape.

Congress has been asked to enact a law that will provide a fine of \$10,000 or imprisonment for not more than 20 years for persons who circulate seditions and traitorous propaganda, whether by word of mouth or literature. One of the principal objects of the proposed law is to halt opposition to the Liberty Loan campaign.

KAISER VS. BUTCHER WEYLER

Devastation and Cruelty in Cuba Outdone in Balkan and France.

All America shuddered with shame and contempt when a heartless Spaniard drew 400,000 peaceful inhabitants of Cuba from their homes and forced them into concentration camps to suffer, to starve and to die.

But no one ever accused the Madrid government, of such brutality as marks the cruelty inflicted upon children, or the unconscionable barbarity shown to women by the heartless Germans in occupied lands.

What the Prussians have done in Belgium, in Russia, in Roumania and the other European countries he would do in America if the Kaiser wins the war.

Buy a Liberty Bond and register a protest against the saber-rattling, bloodthirsty Prussian war lord.

America must win the war or civilization is doomed. Uncle Sam can and he will win, but he must have the loyal support of the men who stay at home as well as the soldier who goes to France.

Billions must be raised to supply the guns, the food, the thousand and one things that are necessary to support the army.

The free citizens of the United States must supply the money with which to feed, clothe and munition the army. The best way to do this is to buy a Liberty Bond—the safest investment in the world.

MISSOURI PIGS ALSO LOYAL

They Will Root for Third Liberty Loan Bond Campaign.

Missouri pigs will root for the world's freedom, will supply food for the Sammies and create a fund for the purchase of Liberty Bonds at the purchase of Liberty Bonds.

A whole trainload of young porkers will wend their way from Audrain County, Mo., to the St. Louis market, where they will enter the shambles and willingly give up their lives that the boys "over there" may live.

The "pig" idea is the product of the fertile brain of a Missouri woman, Mrs. C. F. Clark of Mexico, realizing that "pigs is pigs" no longer, but money instead, took her project up with the farmers, who heartily endorsed her plan. They have agreed to load up the train with pigs and invest the proceeds in Liberty Bonds of the third issue.

PICTURES TO MOVE PATRIOTS

Slides and Trailers Prepared in Washington and Sent Broadcast.

Moving picture shows throughout the Eighth Federal Reserve District, embracing seven states and parts of states, will educate their patrons through series of slides and trailers that will be supplied through the national organization at Washington.

These pictures will be a reminder of the duty that the people owe to their country in the present crisis.

WORLD'S MOST CURIOUS CITY

London Magazine Seems to Have Discovered Queer Settlement on Saginaw Bay, Lake Huron.

The most curious of cities consists of wooden huts on wheels, to the number of about one hundred and thirty, which, when the season arrives, are rolled onto the ice on Saginaw Bay, Lake Huron. The population of this city without a name is about five hundred. Each hut is fitted with cooking utensils, hammocks, and a stove, and is occupied by three men, whose business on the ice is to follow a peculiar method of fishing.

In the center of each hut a hole, about a yard square, is dug to the winter. One of the fishermen then takes a live fish of the herring tribe, and after fastening it to a piece of packing, drops it into the water. The fish dashes away as swift as an arrow until it is pulled up by the thread, when it returns towards the hole followed by a host of pike and other fish desirous to feast on the dainty morsel. Beside the hole stand the fishermen, harpoon in hand, waiting the arrival of the pursuers, who are received with thrusts of the four or five-pronged instrument, which rarely fails to bring up some writhing victims.

Some huts can show two hundred or more of fine fish at the end of the day's work. The most weird appearance of this city is at night, when the fishermen prosecute the work by the light of torches, which, as is well known, attract fish without the aid of the herring bait. The glancing torches and the shadows of the men leaning over the holes make a strange spectacle. If fish are not abundant in the spot first chosen the hut is wheeled to another site.—London Tid-Bits.

FAIR PLAY ABOVE VICTORY

Canadian Soldier Generous in Seeing That Opponent Should Have His Right Chance to Shoot.

In an obscure Los Angeles suburb lives a blind man. The following is one of the many stories he tells of his experiences:

It was in the early nineties that a picked team of American riflemen had gone into Canada for friendly contest with the Queen's Own.

The competition had been fierce and the score close when the last American riflemen laid down at 800 yards. He had to make 23 to tie and 24 to win out of a possible 25.

A great crowd had gathered to watch the contest, and had gradually closed in behind the firing station until there was very little space left for the riflemen.

The first four shots scored the bull's eye, counting 20. With his last shot he had to make it 3 to tie and a 4 to win. The excitement was intense, and the air was charged with the magnetic stillness of repressed excitement, as the commanding officer of the Queen's Own stepped forward and called out "Get back there and give the man a fair show. How can he shoot with you standing on top of him?"

The crowd fell back, the American and the Indicator recorded another bull's eye, making his score 25.

Age of Fishes.

The most striking characteristic by which fishes of different ages can be distinguished is their size. But the size affords us only the means to estimate the age of younger fishes; as to the older, it cannot serve us as an indication of their age, since their growth may vary according to the different conditions of nutrition, so that often the younger fish will exceed in size the much older fish. There is, however, at least one regards the fishes of the Northern seas, a sure indication that betrays their age. It is the otoliths, or ear stones. These ear stones grow as long as the fish itself continues to grow, and form annual rings in the manner of trees. The more annual rings shown by a fish's ear stones the greater its age. In this way the age of a fish can be exactly determined.

Salaries Are Increased.

Owing to the great advance in the cost of living, the local government has increased the salaries of all its employees who were paid under 1,800 escudos (\$1,945) per annum. The increases in some cases have amounted to 45 per cent, writes Consul John F. Jewell, Lourenco Marques, Portuguese East Africa.

The resultant excess of expenditure over the budget estimate for salaries is in round figures \$312,000. As the budget could not bear any additional expenditure without a deficit that would embarrass at present and in future hinder the development and the progress of the province of Mozambique, to meet this new expense item the government has increased the fees for licenses for bars, canteens, kiosks, etc., the telegraph and telephone rates, and the export tax on sugar and has established a "military" tax. Increased revenue is expected from these measures as follows: Export tax on sugar, \$216,000; telegraph and telephone rates, \$27,000; other taxes and fees, \$46,000.

The Boon of a Short Memory.

A Canadian corporal writes that the condition of the "roads" often appears a perfect pandemonium until one gets used to it. One of the strains that counts in this war is on coming out of the trenches to go to a rest billet. Up in the line a man is keyed up to stand a bombardment, and there is a fierce joy in getting to close quarters with a bayonet. But when the relief is over, and the regiment is on its way for four or five miles to rest billets, the stimulus is lacking, the pack seems doubly heavy, and the road is very hard to feet softened by three or four days of wearing gumboots in the mud of the trenches. In 24 hours, with a bath, a shave, and clean kit, there will be different men; for memory is mercifully short in this war, and the comforts or discomforts of the moment are the things that count.

Unnecessary Intestines.

The human intestine seems to be partly a relic of prehistoric times, largely useless in this modern day and age. The uselessness of the vermiform appendix, which is simply the stump of what was once an important and functioning branch of the alimentary canal, is well known. Recent operations in a London hospital seem to indicate that a large part of the lower main canal, the colon, can be dispensed with without harm. In these operations sections of the colon have been removed. The work brings up again the famous scientist Metchnikoff's debated contention that these parts of the anatomy are not only useless but dangerous.

Back-Handed Comfort.

"They say men of brains live longer than others."

"Don't worry about that, dear boy; you may be one of the exceptions to the rule."

THEFT IS CHECKED

Insurance Embargoes on South American Shipments.

Pilfering Formerly Was Credited to the Canal Zone but Has Been Reduced to Minimum.

Pilfering is still a great problem in the case of merchandise shipped to ports on the west coast of South America. At several ports the extent of the evil has been greatly lessened as a result of insurance embargoes on goods destined for those ports or in response to constant complaint on the part of the consignees, according to Commerce Reports. In Mollendo pilfering, so far as Bolivian goods are concerned, has been reduced to small proportions in consequence of an agreement between the Peruvian and Bolivian governments which provides for the prompter dispatch of merchandise for Bolivian destination. Nevertheless, the problem of pilfering remains a serious one at practically every port on the west coast.

Formerly it was the fashion to say that much of the pilfering took place in the Panama Canal Zone, and there was probably some basis for the statement in the days when traffic through the canal was stopped by the slides in Gallard cut and freight was badly congested at Colon and Balboa. It is probably true, however, that even in those times much of the loss attributed to pilfering was due to unusual handling or exposure. Since traffic through the canal has been resumed on a normal basis the loss from pilfering in the Canal Zone has been reduced to an almost negligible point.

Goods trans-shipped to Colon and Balboa are stored in pier sheds immediately upon discharge. The sheds are large, well built, fireproof, and can be easily guarded and protected. Both in the discharge from ship to pier and in the reloading from pier to ship the Panama Railroad company exercises strict supervision over all operations, since it has charge of all port facilities and does most of the stevedoring. To protect itself against claims for loss the railroad company long since instituted an elaborate checking system. Checkers not only take account of the number and weight of cases and packages loaded or unloaded on the piers but also note the condition of the containers as they pass over the piers and put aside for careful inspection cases that appear to be underweight or to have been tampered with. In many instances pilfering can be detected by a difference in the recorded weight and the weight on arrival in Panama, though pilferers are clever enough, as a rule, to substitute articles of the same weight for those they have abstracted.

Moreover, a number of watchmen and detectives are employed by the Panama Railroad company. Some of the detectives work as dock laborers. The watchmen cannot be in all parts of the pier sheds, and in a far corner of a shed or a hold the stevedores may handle a case with such roughness as to cause it to break open, enabling its contents to be easily carried off. Detectives can exert an effective restraining influence in such cases.

It is clear, then, that the precautions against pilfering in the Panama Canal Zone are extensive and effective and that the source of the pilfering must be sought for elsewhere.

NATURE'S WARNING

Hartford People Must Recognize and Heed It.
Kidney ill come mysteriously. But nature generally warns you. Notice the kidney secretions. See if the color is unwhitish—there are settling and sediment. Pains, frequent, scanty, painful. It's time to fear serious kidney trouble.

It's time to use Doan's Kidney Pills.

Doan's have done great work in Hartford.

J. A. Baird, R. F. D. No. 5, Hartford, Ky., says: "I used only one box of Doan's Kidney Pills, but that was all I needed to cure me of kidney weakness. For some time I had been troubled by sharp twinges across my loins and other symptoms of kidney complaint. As I heard Doan's Kidney Pills being highly recommended, I got a supply and their use cured me. I highly recommend this remedy."

Price 60c at all dealers. Don't simply ask for kidney remedy—get Doan's Kidney Pills—the same that Mr. Baird had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. Adv.

LETTER POSTAGE 3 CENTS

Under the new tax law beginning Friday, November 2, 1917, all letters must bear 3 cents postage (each ounce) instead of 2 cents, as in the past; except "drop" or local letters, that is letters for delivery at the post-office or on rural routes out of the office at which the letters are dropped or mailed, these being 2 cents. Postcards will require 2 cents instead of 1 cent as in the past.

THE THRIC-E-A-WEEK EDITION OF THE NEW YORK WORLD.

Practically a daily at the price of a weekly. No other newspaper in the world gives so much so low a price.

The value and need of a newspaper in the household was never greater than at the present time. The great war in Europe is now half-way into its third year, and whether peace be at hand or yet to far off. And the events to follow are sure to be of absorbing interest for many months to come.

These are world-shaking affairs, in which the United States, willing or unwilling, is compelled to take a part. No intelligent person can ignore such issues.

The Thrice-a-Week World's regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and The Hartford Herald together for one year \$1.65.

AMERICAN DOLLAR IS BEST WEAPON AGAINST GERMANY**UNCLE SAM FIGHTING TO WIN WAR FOR WORLD'S LIBERTY AND FREEDOM.****FARMERS OWE DUTY TO U. S.**

Liberty Loan Bonds Are Safest Investment and Are a Guarantee for Continued Prosperity for the Entire Country.

Every dollar invested in a Liberty Bond is a blow at the greatest international criminal in history. Every dollar that goes to purchase a Liberty Bond is a protest against the greedy, unscrupulous, soulless power bent upon enslaving the world. One hundred dollars invested in Liberty Bonds brings victory nearer to America and the Allies and saves the lives of American soldiers battling for home and country.

Farmers especially should realize that Uncle Sam is fighting not only to win the war for the Allies but for America. No American citizen should imagine that the United States is in this war for the Allies alone. A victory for Germany would mean slavery for Americans as well as the remainder of the world.

Wake up, freemen of America, and help your government to destroy the ruthless power that has plunged more than half of the world into the bloodiest, most horrible war in history. Farmers now obtain high prices for their products, but if the Kaiser wins the war there will be no \$2 wheat or corn, and hog and cattle raising will become unprofitable, because the markets of the world will be closed to America.

Uncle Sam has been good to the farmers. They have lived in peace and their homes have been secure and the Federal Loan Bureau has provided cheap money with which they could pursue the arts of peace.

Farmers in the last few years have been so well paid for their produce that they now are "on their feet," or more nearly so than ever before.

Any economy they can practice now will give them additional money with which to lend financial aid to the government in its great battle for right and fair dealing.

Uncle Sam is not asking you to donate one cent, but he is pleading that you lend him your money to help make the world safe for democracy. He offers you a Liberty Bond with a high rate of interest. A Liberty Bond is the safest investment in the world.

When a farmer buys a Liberty Bond he not only helps to finance the war, but he becomes a lifesaver for American boys fighting the most heartless, cruel, relentless foe that civilization ever has been called upon to face.

Last year the great cry was conservation. This year it is thrift. The nation last year was urged to conserve the natural resources and the products of the farms and fields and factories. Greater crops were pleaded for, and canning clubs and city gardens were urged.

This year the country is being taught the lesson of spending its money wisely. The government is showing the farmer as well as every other citizen the importance of putting every dollar where it will do the most good.

The fact that the farmer is being told this year to be thrifty does not mean he is not to plant every acre available and till his crops carefully and harvest them when they are ready for the reaper.

But it means he is to invest wisely the money he gets for the splendid crops he has demonstrated he is able to raise.

Conservation and thrift go hand in hand. The farmer, as a rule, can find something for which to spend almost every dollar he receives. There always is something to buy. Machinery is needed, notes must be met, fertilizer purchased, harness, clothing, oil and groceries paid for.

With the high prices he will receive for his products he will have money left after he has met his expenses.

The patriotic citizen will invest this surplus in Liberty Bonds, the safest investment in the world, and one that will not only bring in a fair return but will help to make America a safe place to live in years to come.

Every dollar loaned to the government serves to shorten the war and bring peace to the world.

Farmers' Work Cut Out.

Uncle Sam has never called upon the American farmer in vain. The Third Liberty Loan will start April 6. This spring and summer the support of the war is up to the farmers. We must lick Germany. Unless we do our place in the world is lost. We are giving our sons, we are giving our food supplies, and now let's not fail to back up the treasury with our dollars. Buy a Liberty Bond and help to keep the Kaiser out of the United States.

Remember the Tucumcari. Buy a Liberty Bond and help build warships to protect American soldiers over the sea.

PRESS OF AMERICA IS MOST POTENT AID**All Newspapers Prove Loyal and Aid Government.**

It has been said that the biggest agency, outside the men who go to the front, in rendering the government aid is the loyal press of the United States.

Not only has the metropolitan daily given of its news and editorial space to help in the great struggle being waged on the Western front, but the "home-town" paper has gone direct to the hearts of its readers in telling of the story of the war.

Every country paper throughout the Eighth Federal Reserve District has pledged itself to assist the Third Liberty Loan, which will be started in April. It is good for the country that we have a united and loyal press. And it has been thus from the beginning. Even when public opinion was wavering and doubtful, at the time of the declaration of war, the American press stood by the government with a fine, fearless and splendid loyalty.

Populace opinion is made up largely of what the people read—the facts they read. This loyal and fearless publicity has made plain to all the atrocious conduct of Germany in bringing this frightful calamity upon the world and the terrible abominations she has committed in the course of our progress toward victory. The press is one of the most potent forces to hold our people steadfast to the winning of the war.

But if the Third Liberty Loan and the other war measures of the United States government are defeated, then the press will be forced to tell a different story.

It will then be forced to tell about the murder of American women and children by the Germans; the murders that the enemy will commit in order that we might be enslaved. If the treasury fails or finds itself unable to respond to every call made upon it the war is lost. Your son and all of the nation's sons are relying on the United States Treasury to furnish things with which they may fight.

Erect the home defenses against "Butcher Bill." Buy a Liberty Bond.

The German Employment Agency

This is how the Germans offer a man employment in Belgium and northern France. Thousands have been forced, at the pistol's point, to work in the German munition factories—making shells and bullets for the slaughter of their own countrymen.

Would you like to get a job under those conditions?

You are apt to, if our men over there can't stop the German onslaught.

And they *can't* stop it without the necessary equipment.

And they *can't* get the equipment unless you lend your money to Uncle Sam. You can't dodge the issue; it's fairly and squarely up to you--the men, women and children of America.

Buy Bonds of the Third Liberty Loan

Buy all you can possibly pay for, even though the payment involves stern self-denial. Remember you are not asked to give your money; you are asked to lend it, at good interest, to the wealthiest, strongest, most honorable nation on the globe.

If you can't pay cash for your bonds, you can borrow a part of the money at your bank, using the bonds as security; or you can buy them at your bank on easy partial payment plan. It is no trouble to buy Liberty Bonds---it is no trouble to pay for them. See your banker today.
